Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 27,33,34 and 35 are rejected under 35 U.S.C. 102(b) as being anticipated by Kenichiro et al. (JP1989-172813). Kenichiro discloses as shown in figure 4 a medical retrieval instrument 10 comprising filaments 16, fixing member 17 provided in the distal end portion of the sheath 1 for fixing one end of the filaments 16, and operation wire 2 provided inside of the sheath for operating the filaments through forward and backward movements.

Regarding claim 28, Kenichiro discloses the accommodation part having a groove formed between the distal end of the sheath 1 and part member 17.

Regarding claim 29, Kenichiro discloses the accommodation part having a hole formed between the distal end of the sheath 1 and part member 17.

Regarding claim 32, Kenichiro discloses an operating wire 2 for operating the filaments 16 through forward and backward movements, a sheath 1 in which the operating wire 2 is provided, and the fixing member 17 is provided in the distal end portion of the sheath.

Claim Rejections - 35 USC § 103

Art Unit: 3731

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 30 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kenichiro et al. (JP1989-172813) in view of Avellanet (6,264,664). Kenichiro discloses the invention as claimed except for the adhesive. However, Avellanet discloses a surgical basket device comprising the filaments 28 adhering with adhesive to the attachment portion 56. It would have been obvious to one having an ordinary skill in the art at the time the invention was made to modify Kenichiro by using adhesive to attach the end of the filament to the distal end of the sheath in view of Avellanet to provide ease in connecting the filament to and disconnecting the filament from the distal sheath.

Allowable Subject Matter

Claim 22 is allowed.

Claim 31 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3731

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
